CHANGED THE CHARGE

Harry Hughes and the Card Players in Court.

NO GAMBLING AT THE SALOON

Mayor Manley Asked Security When the Defendants Wanted to Stand Trial—An East End Quarrel—Other Police Court Matters.

Affairs with the authorities Saturday night and Sunday were remarkably quiet and arrests were so few as to be looked upon as a rarity. Nevertheless Acting Mayor Manley had a few names on his docket today, and the victims were sorry that he had.

Harry Hughes and George Dale were the only parties connected with the game in Hughes' saloon who appeared in court, and Hughes refused to plead guilty of allowing gambling in his place. As the police had little evidence on that point and much to show a game of cards was in progress, the charge was changed to playing in a saloon. Hughes wanted a trial and Mayor Manley demanded security in the sum of \$50. The warrants for the players have been issued under the new charge, and they must plead guilty or, like Hughes, leave security.

David Shaw and Fred Owen, young men employed at the East End pottery, will be heard by the mayor tonight because they are charged with knocking apples from a tree on the property of Farmer Bell in East End. There were some words between them and the owner of the property, and they refused to plead guilty when arrested. The young men were released on their promise to be at city hall when the case is called at 6 o'clock this evening.

Charles Watson was the only individual inclined to depart from the paths of rectitude Saturday night, and when he did so he made a mistake in his man. Charles had gazed upon spirituous liquors until he had become red of optic, and in his own mind, the ruler of the United States and West Virginia. He was on Jackson street when Leon Rich, of Third street, came along with his little son. Charles proceeded to tell Leon all about it, and was quite indignant when Mr. Rich did not procure a reserved seat and pay close attention to all that was said. He emphasized his remarks with language that burned a hole in the atmosphere, and then smote the boy. Mr. Rich informed Chief Gill and as it was evident that Watson needed arrest, the chief gave him one of about two hours in jail. At the end of that time he gladly paid \$9.00 for his release and promised to sin no more.

The police have been looking for a man who throws bricks for amusement. He stood at the corner of Broadway and Washington street early Saturday morning, and threw two bricks through the window of the shoe shop near Berry's restaurant. Then he disappeared down Broadway, and when Officer Earle came a few moments later he could not be found.

Oliver Pinkerton, who was fined \$17.00 on Saturday for an old offense, paid the amount and was released Saturday evening. The evidence showed that Pinkerton had refused to pay his fare and called the motorman vile names and wanted to fight. He evidently changed his mind about the advisability of standing trial in such cases, as he sadly produced security for the amount.

The young man named Blazier, who departed with Willie Farmer's coat and vest last week, explained to Willie that it was all a joke and that he would settle it without a cent of expense to the "stranger in Ohio City." Willie looked severe and told the prisoner in a fatherly manner that he was a "weeked" man, but he could forgive him. The compromise was accordingly effected, and Blazier departed happy.

The delay of the necessary papers from Judge Young has caused the incarceration of Byron Booth until the present time.

WON THE GAME.

Y. M. C. A. Had It All Their Own Way.

The final game between the Young Men's Christian association and the Hillsdales was a victory for the local team of no mean proportions. Orr pitched the first five innings, but strained his arm and was succeeded by Percy Albright. The visitors played as though they had no inclination to win or were completely broken up. At best the game was a one-sided affair, and the local team won with ease. There were no exceptionally good features beyond the playing of Twaddle, Taylor and Albright, who seemed to be working for records. The score was 9 to 20, and the association boys stole 14 bases, while their oppo-

nents could not get away with one. McShane, Kennedy, P. Albright and Laughlin each made a three-base hit, and McShane, C. Albright and Ackley sent the ball far enough to make two bases. The association played good ball, and the crowd was delighted. The cranks are all happy these days because Winnie Mercer is eighteenth in the batting record of the league, and they expect to see him go even higher.

The enthusiasts at Spring Grove will play ball with a picked nine tomorrow evening. The camp ground team is styled the Tombstones.

MARRIED THIS MORNING.

Mr. George Brunt and Miss Nellie Layton Made One.

The many friends of Mr. George F. Brunt and Miss Nellie C. Layton were surprised this morning to hear that they were quietly married at the residence of M. S. Simms by Doctor Huston of the First Methodist Episcopal church. The ceremony was performed in the presence of a few friends, and in time to permit the happy couple taking the morning train. They will spend their honeymoon up the lakes, and returning will see the cities of the east. The happy young couple will reside in the city. They have many friends to wish them all the happiness that can be gathered in the matrimonial year. The marriage was a complete surprise to many of their friends in the city, but their good wishes are none the less sincere. The groom is the son of Mr. Henry Brunt, the manufacturing potter, and Mrs. Brunt was until Saturday evening the accommodating cashier in the postoffice.

WAS HE THE MAN?

Perhaps Chief Gill Lost a Few Hundred Dollars on Saturday.

On Saturday night a chap who looked as though he had wandered through several hundred miles of thicket walked into city hall, and telling a hard luck story as long as his arm asked Chief Gill to let him sleep in a cell. As the night was cool and pleasant and it is against the rules the chief turned him away, but not before he said he was from Cincinnati. The next day there came a postal from Chief Detsch, of Cincinnati, announcing a reward of \$200 to be given by the Panhandle company for the arrest of the man who murdered William Lewis in that place. There was nothing about the description which caused the chief to wonder if the young chap who wanted lodging was the fugitive, but when he looked for him he was gone. Criminals have been known to do bolder things than sleeping in jail.

THE MOTORMAN KICKED.

And the Night Policeman Wouldn't Ride On His Nasty Car.

Those who were abroad and happened to be in the Diamond the other night witnessed an animated discussion between Colin Kinsey, merchants' policeman, and prominent among holiness people, and a motorman on the electric line. Kinsey had boarded a car, and in the manner of the blue coated colony, did not deposit the required twentieth part of a cart wheel in the fare box, whereat the motorman objected. Kinsey said the superintendent had given him the privilege of free rides, but the motorman replied that he didn't care a cuss, as he had secured no orders to that effect. The result is that the battle still goes on, and when the mighty clamor shall cease no man knoweth.

SHAMROCKS SOAKED.

Ignominious Defeat at the Hands of the Toronto Team.

The Shamrocks went to Toronto Saturday and returned home with heads bowed down as a result of a severe "lickin'" at the hands of the club in that city.

Nobody attached to the Shamrocks attempts to tell just how it happened, except that they had just an even dozen errors and nobody from East Liverpool played worth a cent. The score was 19 to 5.

Lynch pitched for the Shamrocks and Brady for the Toronto terrors. The Shamrocks will ere long show the Toronto boys how they play ball when they are feeling well.

AT WORK.

A Number of Potteries Started With Full Forces Today.

As promised for several weeks, there are more men working in town today than for months. The potteries started, and while some are not on in full they expect to have their men working before the week is out. The outside potteries are moving in the same direction, Akron being particularly active. Word from there says that all the employees have as much work as they can do.

DON'T DRIVE TOO FAST

Or the Police Will Have You Before the Mayor.

THE SPEED IS SIX MILES AN HOUR

The Law as Laid Down in the Ordinance Will be Enforced—No More Warning. Instructions Have Been Given and Officers Will Enforce the Rule.

If you happen to own a fast horse and think it great fun to parade his speed on the streets you must keep your eyes open for the police since they have been instructed to arrest all who exceed the limit of the law.

There is an ordinance against fast driving, but it has never been rigidly enforced. Drivers were permitted to choose their own speed, and have at times showed some good road horses to the general public. When Chief Gill decided to enforce the ordinance several owners of fast horses were notified that they must exercise a reasonable caution and failure to comply with the law meant arrest and punishment. In spite of this there were several violations of the law last night, but the last warning has been given. There will be no more requests to keep within the prescribed speed. Instead the offender will be asked to settle with the mayor. Many complaints have been registered with the police against many people, the principal objection being to racing on Fourth, Fifth and Sixth streets at night or late in the evening. The speed as set by section 191 of the revised ordinances is six miles per hour, and another provision says that all crossings must be passed at a walk. Whether the police will enforce this last provision is not known.

LONG GREEN

Is What a Quartet of Plaintiffs Are After.

Four new cases were entered in Squire Rose's court today, and in each instance the plaintiff desires a respectable amount of the root of all evil.

McGowan Brothers, of Steubenville, asks for \$19.37 for groceries sold to W. R. Grafton. Hearing at 8 o'clock on July 16.

Charles A. Turner sues the Kinsey Plumbing company for \$12.42 claimed for material furnished. The case will be heard at 9 o'clock July 17.

J. W. Taylor, of Pittsburg, is plaintiff in an action against John Godwin for \$21.38 claimed for goods sold. Hearing at 9 o'clock on July 17.

Ferd Oschman has not yet satisfied the claims of the B. Stroh Brewing company. They want \$27.40 for empty beer kegs, and their case will be heard at 9 o'clock on Wednesday morning.

PAVE AVONDALE.

Residents Want the Street Improved as Soon as Possible.

"If council is wise it will pave Avondale street," said a resident of that thoroughfare, "and pave it before winter" he continued. "I have been living there nine years, and have a nice property. All these years I have been paying a high rate of taxation without a murmur and deriving no benefit from it. Now that they have taken up the board walks there is nothing except the soft mud, and there isn't worse mud on the face of the earth. When winter comes the mail carrier will have to make his rounds in a baloon, or provide himself with wings. It is not so bad for the people who live next to Cadmus street for we can get into our back yards through that way, but think of the poor ones who must walk in that mud."

THE FARMERS' PICNIC.

It Will Be Held on August 14, and a Big Time Is Expected.

The Township Line Farmers' club held a meeting on Saturday evening, and decided to have the annual picnic take place on Aug. 14. Committees on speakers, finance and music were chosen, and the decision made to have the gathering the greatest event of its kind in the history of the county. The club will hold another meeting in two weeks to hear what the committeemen have done. The picnic is always the big event of the year with farmers residing in Madison and St. Clair townships.

NO PROMOTION JUST NOW.

A Peculiar Condition At the Postoffice.

There will be no promotion at the postoffice just now to fill the place vacated by Mrs. Brunt.

From time immemorial the clerks have been given a vacation every year, and the others have done their work while they were absent. Mrs. Brunt's

vacation began today, and when the two weeks are over she will return to her desk because the civil service commission have not passed on the papers of the applicants examined June 1. Postmaster Miskall can not fill the vacancy until he knows who has the best grade. When that information arrives the lady will step down and out, and the fortunate competitor will take her place.

RETURNING POTTERS.

Also Some Others Who Will Work in the West.

James Stevenson, David Johnson and "Buffalo" Anderson, who came to this city with the Brotherhood delegates when they returned from Wheeling, left this morning for Tiffin.

Thomas Taylor has secured a situation in Tiffin and will leave for that city tomorrow morning.

Orator Smith returned this morning to Peoria with the opinion that East Liverpool is just as good a town as it ever was.

Dock Ritz, formerly a presser at Harker's, and Ted Collins, a well known potter, left on the morning train for Wheeling, where they will work in the La Belle pottery.

A DANGEROUS RIDE.

The Man Slept In His Buggy, Which Almost Went Over the Hill.

Passengers on a street car were horrified the other day when passing a point on the Wellsville road which is unprotected by railing to see a man asleep or drunk in a buggy. The horse was jogging along to suit himself, and with no hand to restrain him scared at the street car, and one wheel went over the hill. As the bluff there is very high the passengers held their breath, expecting to see the whole outfit go over the hill, but the horse recovered its senses, and pulling the wheel on the road jogged merrily along.

WANTS TO BE MARSHAL.

A Candidate For the Place of Charley Gill.

Candidates who hope to fill the shoes of Charley Gill are already appearing among their friends asking for support, but only one has been bold enough to announce himself at present. His name is George Shaw, and he is one of the best known potters in the city. He has always taken an active part in politics, and for 13 years has worked for the success of the Republican ticket. Shaw will make a thorough canvass, and will not waste time in beginning. There will be several candidates for the position.

A SCHEMER.

He Had a Good Thing But Met the Wrong Woman.

A smart young man with a high collar and a smooth tongue called on a lady in the West End Saturday afternoon, and offered to sell some baking powder. He had a sample can, and explained that it cost 50 cents, but for a dollar additional she could get a nice cut glass dish to be delivered with the powder. As he wanted pay for the dish in advance the lady ordered him out of the house, and he walked away blandly asking her if she thought he was a fakir.

HOME FROM EUROPE.

William Erlanger Had a Pleasant Time.

William Erlanger, the well known clothier, returned last week from the East where he has been visiting since his return from Europe. He had a pleasant time in Germany, Switzerland and France, and did not forget his friends when enjoying the old scenes of his early days. The editor of the News Review returns sincere thanks to Mr. Erlanger for a handsome briar pipe, an acceptable and decidedly useful part of the editor's daily life.

EXPECTED.

A Big Sensation Said to be On the Boards.

People who claim to know say that the biggest sensation of the year will be sprung this week if arrangements now being made to shut it up fall in any way. The young man is said to be popular and not unknown in fashionable society, but the name of the woman is religiously concealed. A reporter learned today that the case would come to trial if the monetary consideration was not accepted.

SOON TO MOVE.

Chevalier Club Quarters Almost Ready For Occupancy.

The new home of the Chevalier club is almost complete. The rooms are located in the McFall building, and the club will occupy them next week.

The boys have been in camp at Williamsport and are having a big time there.

NO CASES NEXT WEEK

Nor For Two Weeks After That Time.

THE LAWYERS WILL REST

They Had a Little Meeting and Decided to Take the Annual Vacation. Three New Members Admitted to the Association—Ice Cream For All.

The attorneys have decided that for a space of three weeks, beginning with next Monday morning, they will toll not, neither will they spin, but arranged in all the purple and fine linen of their wardrobes they will endeavor to spend their annual vacations as pleasantly as the weather and a lot of other provisions will permit.

This decision was reached at a meeting of the Southern Columbiana Bar association held in the office of J. J. Purinton on Saturday evening. A goodly number of legal limbs were there to discuss the question, and President Smith presided. After deciding to devote three weeks to pleasure, the latest additions to the profession were elected to membership. They are John McGarrv, A. George Hasson and A. W. Stevenson. There was no other business, but the attorneys felt so cheerful because of the decision to rest that they could not refrain from the temptation to eat, and going to the nearest ice cream establishment enjoyed for a few minutes the frozen sweet. During the time specified no attorney in the southern part of the county will pay any attention to business.

A FEW DRUNKS.

The Police Only Saw a Few on Saturday Night.

There were very few drunks on the streets Saturday night and yesterday, and the novelty brought this from Chief Gill.

"You can put it down young man that there are as many drunks arrested as there are dogs licensed in the town, and as many escape arrest as there are unlicensed dogs. If you investigate you will find there are many more dogs without a license to live than dogs with a license, yet men who fail to pay for their dog and would kick if the police killed him are the men who object because we don't arrest more drunks."

WELLSVILLE'S BANE.

Bums Continue to Sleep In City Hall.

The railroad authorities are still after the chaps who ride on freight trains without permission of the company, and Wellsville must take care of them. They are arrested and taken before Mayor Sinclair, who gives them a sentence, and puts them on the streets. When they grow weary they walk away, and the people smile at the farce. A sentiment is growing in favor of a stone pile if the town must do the punishing.

Absent Minded.

A local man should be awarded the medal for absent mindedness. It is given as absolute truth that he arose this morning during the rainfall and taking the sprinkling can watered his garden, meanwhile getting soaked to the skin. He then remarked of the exceedingly hot weather and thought his dripping clothes was the result of sweating.

A Discussion.

The fight now going on in the Republican ranks of Pennsylvania is attracting no end of attention here where Senator Quay has a number of good friends. On Saturday evening the result of a heated discussion over the matter was a wager of \$10, the Quay man saying that he would have given his opponent odds if he had asked it.

Left For Beaver Falls.

George Hale, the wheelman, left at noon today for Beaver Falls taking with him the bicycles he has used in training on the East End track. He will join the remainder of the racing team from that place, and go to Shelby to contest in the races there this week. Hale is in good condition, and is expected to win a prize or two.

For a New Trial.

Attorney J. H. Brookes went to Lisbon this morning to argue a motion for a new trial in the case of A. C. Wolfe, of Wellsville, versus the Grand Opera House syndicate and management. The verdict it will be remembered was for the plaintiff.

Going to Cumberland.

W. Bucey, an insurance man who has been in the business here for three years, has decided to change his location, and will move to Cumberland tomorrow.

NOMINATE HIM.

If there is truth in the published
stories of the president's ambition to
sit in the White House for another
term, the Republican leaders should
call a meeting for the purpose of giving
thanks. With the record of
misery, starvation and suffering that
will always be heard when the name
of Grover Cleveland is mentioned he
appears as the weakest and least dan-
gerous of his political belief. Even
Hoke Smith would stand a better
chance for election, since there is lit-
tle doubt that Hoke was simply obey-
ing orders when he cut pensions. As
a politician and a leader Cleveland is
exceptionally weak. The awful blun-
ders of his administration, the fatal
error of passing laws that would not
stand the close scrutiny of the
supreme court; the persistency of the
manner in which he forced hard times
upon the people through his mislaid
advocacy of tariff reform, serve to
make him the most unpopular man of
his party. If the Democrats are
wise they will turn Cleveland down,
for his nomination will elect a Re-
publican by the greatest majority of
American history.

SPEAKING OF JOURNALISM.

The Rev. Dr. George Dana Board-
man spoke at Chautauqua the other
day, and in the course of his address
proved his level-headedness by these
words:

"Speaking of the responsibility of
journalism I love my calling. I be-
lieve that the ministerial vocation is a
divine appointment and indispensable
to the welfare of society. Neverthe-
less, I cheerfully admit that there is
another preacher who exercises a
vaster influence than the preacher in
the pulpit. It is the preacher in the
press room. For the journal comes to
its readers not only as a news teller. It
comes also as an oracle. The very
fact that it is anonymous gives a
sort of shadowy majesty. The journal
not only reflects public sentiment. It
also largely shapes it. It often out-
lines even the policy of a nation.
Thank God, many of the editors are
true to their vocation. They are
brave to denounce wrong doing in
conspicuous places, swift to recognize
merit in public life, and skillful to
build up society."

The doctor speaks truly. He has
observed what thousands of people see
every day and fail to notice. He has
looked beyond the newspaper, and
glanced into the face of the man who
reads it seated at his fireside when
the work of the day is over.

A CRISIS IN ARMENIA.

Proposed Turkish Execution of
the Reforms Is Mockery.

20,000 CHRISTIANS IN PERIL.

Unless Europe Controls the Reforms,
There Will Be a Massacre in Van
Within Three Months—Armenians Will
Bring This About in Their Desperation.

LONDON, July 15.—The correspond-
ent of the Associated Press in Arme-
nia sends the following advice from
Van: By the transfer from Van to
Constantinople of the advance guard of
the Armenian revolutionary movement
captured in the village of Tehlikouka,
as mentioned in my last letter, the
Turkish government has taken a de-
cided step toward quieting public ex-
citement in the eastern part of the em-
pire. In the party was a Nestorian
who was captured with the band by an
unlucky accident. He was returning
to Van from the Russian city of Erivan,
and falling in with the revolutionary
party in the mountains, he decided to
travel in company as a measure of
safety. No amount of protest on his
part had any weight with his captors or
with the governor of Van.

The governor of Van, Bahri Pasha,
has, during the week, added several in-
teresting facts to the alleged confession
of Harry Williams, the English leader
of the captured band. According to
the governor, Williams has confessed
that the revolutionary party, which
sent him to begin the revolution, has
3,000 rifles in Trieste, Austria, which
will be shipped to Armenia for the use
of the patriots at the earliest oppor-
tunity. An interesting incident of
Williams' confession, as made public
by Bahri, is the fact that he is not a
British subject at all, but is a native of
the Caucasus region of Russia, and,
strangely enough, of the very district
in which Bahri himself was born.

Leaving out of consideration entirely
the second revolutionary band across
the Persian border, it is an undeniable
fact that the Armenian situation was
never at a more critical point. The
revolutionary party realizes more fully
than any one else that no scheme or re-
form is worth the paper that it is writ-
ten on, unless it has for its central point
the actual executive control by an Eu-
ropean high commissioner and Eu-
ropean officers.

The Armenians had been expecting
that an Englishman would be appointed
high commissioner. Their consterna-
tion at finding that they must depend
upon Turks for the execution of the re-
forms is pitiful in the extreme.

Your correspondent the other day
met the representative of a fourth revo-
lutionary party which has agents in
Russia, England and America. Their
headquarters seem to be in America,
where a party newspaper is published
and revolutionary funds collected. This
agent is a Russian-Armenian, and he
holds strong views on the situation.

He called on Mr. Hallward, British vice
consul at Van, two days ago, to inquire
if there was any encouraging news for
the Armenian people. Incidentally he
told Mr. Hallward that the Armenians
had made up their minds that it was
better to be killed fighting for their
country than to be outraged, butchered
and exterminated by slow degrees. The
fourth revolutionary party has brought
no guns to Armenia, nor does the agent
say that he has any arms hidden in the
mountains. The party's principles,
however, are of the most radical and
advanced sort.

Unless Europe controls the reforms
there will be a massacre of 20,000 Chris-
tians in the city of Van within three
months. The Armenians themselves
will bring this about rather by cast
adrift by their fellow Christians of the
west. Their argument on this point is
perfectly plain. They assert that it is
better to die by the sword with perhaps
the chance that their death will ad-
vance the cause of the Armenian race,
than to die by torture and starvation.

ONLY A CONFERENCE.

Senator Jones Explains the Call Issued
to the Silver Democrats.

WASHINGTON, July 15.—Senator Jones
of Arkansas, who joined with Senators
Harris and Turpie in issuing a call for
a conference of silver Democrats in
Washington on Aug. 18, has written a
letter to a friend in Washington ex-
plaining the origin of the call and the
purposes of the meeting. He says:
"At Memphis, after the adjournment
of the meeting there, a number of Dem-
ocrats from different states had a meet-
ing at the Gayoso hotel, and after con-
sideration that meeting requested Sen-
ators Harris, Turpie and myself to take
steps to organize the silver Democrats
so that they should be fairly represented
in the next national convention. We
concluded that the best way to do this
was to first organize a national central
committee of silver Democrats consist-
ing of one or more members for each
state, and let these members look after
the organization of their own states. To
select gentlemen for membership in this
committee by correspondence seemed
slow; hence it was concluded to invite
one or more gentlemen of character and
experience from each state to meet in
Washington and select, if they thought
well of it, this central committee. This
is all there is of it, as I understand it."

The general impression seems to have
gone out that this conference was to be
a mass meeting. Senator Jones' state-
ment puts it in a different light.

A BRAVE CAPTAIN AND CREW.

They Keep Passengers From Knowing of
a Steamship Fire Until Extinguished.

NEW YORK, July 15.—The French
line steamship Normandie, from Havre,
which has arrived in port, had a fire on
board during the passage. It was at 7
o'clock on the night of July 9. The
passengers were all at dinner, and lit-
tle was known until the next day of the
danger through which they had passed.

Smoke was seen issuing from the
starboard alley, amidships. It
permeated the staterooms and saloons
and was soon noticed by the cabin pas-
sengers, while they sat at dinner. The
stewards, who were the first to discover
it, passed the word aft and Captain
Deloncle was notified. Search was
made for the source of the fire. It was
found to be in a compartment of the
lower hold amidships, where there
were stored case goods, hides and skins.
It is supposed to have resulted from
spontaneous combustion among the oily
hides.

The fire apparatus was brought into
use and 12 lines of hose poured hot
water into the compartment. There
was danger of the water rising too high
in the compartments, in which event
the ship would have been flooded.
Meanwhile all hands had been ordered
on duty. Volunteers were asked for to
go to the seat of the fire and learn the
exact condition of affairs. The whole
crew volunteered to a man. Ten were
selected.

The compartment which had to be
flooded was about 24 feet by 72 feet and
about 10 feet high. The water had
nearly reached the ceiling when the ten
volunteers reached there. They reported
the condition of affairs to Captain De-
loncle, who ordered the water flow stop-
ped. During this time few of the passengers
knew what was occurring. Two fright-
ened ladies went to the captain's state-
room to inquire about the trouble. Cap-
tain Deloncle assured them that what
was the matter and said they could
occupy his own stateroom if they
thought they were not safe below. This
they did while the captain passed the
night on the bridge. The fire was
out at noon on July 10. Before the
ship landed the passengers had a meet-
ing and adopted resolutions commend-
ing the captain and crew for their brave
work.

THE TORIES IN THE LEAD.

Harcourt and Other Noted Liberals
Knocked Out in England.

LONDON, July 15.—Sir William Har-
court's defeat in Derby is the sensation
in political circles. It is admitted on
all sides that the Liberals are beginning
very badly. Of 110 members thus far
elected, 96 are Unionists, 10 Liberals
and 4 Parnellites. Eight Liberal seats
have been captured by the Unionists
and the Radicals have captured one
Unionist seat, that at Perth. As far
as outward appearances go, the elections
are causing little excitement in Lon-
don. There are a few idlers in the
strand where The Graphic displays a
representation of Lord Salisbury and
Lord Rosebury climbing ladders to in-
dicate the course of election reforms.

The moral effect of Sir William Har-
court's defeat will be great, as even the
most sanguine Conservative did not ex-
pect a Liberal majority of 1,900 to be
converted into a Unionist majority of
1,100.

While Sir William Harcourt fared so
badly Hon. A. L. Balfour, the new first
lord of the treasury, who is to succeed
Sir William as leader of the house of
commons, nearly doubled his majority
in Manchester. After the result had
been announced in Derby, at midnight,
Sir William Harcourt, with his wife,
drove to Liberal headquarters and made
a speech, in which he said that he had
been defeated too often to be either
elated if successful or depressed by re-
verse. But he did not wish to conceal
the magnitude of the defeat, which had
fallen upon his colleagues and himself.

Sir William Harcourt's defeat is gen-
erally attributed to the prominence
which he gave to the local vote, or local
option measure.

Strikers Return to Work.

UTICA, N. Y., July 15.—The strike of
the Globe woolen mill employees, which
has been in progress for the past 13
weeks has been settled by concessions
of both sides. Twelve hundred people
returned to work today.

The Weather.

showers; warmer; southerly winds.

A Number of Tramps Supposed to Be
Under the Debris—The Burning of a
Journal Caused the Wreck—Earth
Plowed Up For a Mile.

WHITE SULPHUR, O., July 15.—A bad
wreck has occurred on the Big Four,
resulting in the wrecking of 14 cars of
whisky, feed, tobacco and candies
amounting to \$75,000. Dick Hurley, a
molder of Cincinnati, was killed. The
cause of the accident was the burning
of a journal, the car leaving the track
after it had plowed the earth for a mile.

A number of tramps are supposed to be
under the debris. Work trains from
Springfield and Delaware have been
clearing up the wreck.

A BIG COAL COMBINE.

Bituminous Operators Throughout the
Country Preparing to Form One.

COLUMBUS, July 15.—After several
years of labor to unite all interests, it
now seems probable that all the im-
portant bituminous coal producers in
the country will soon be united in a
pool to regulate the production and
control prices. The formation of the
Ohio Coal association last spring was a
step in that direction, but insurmount-
able obstacles arose which prevented a
consummation of the extensive plans
formed. Now the prospects are bright.

The leading operators in every dis-
trict except the Pocahontas field in
West Virginia have given assent to the

ranging for a meeting of all the parties
interested during the first week in Oc-
tober. It will probably be held either
in Columbus or Chicago.

Tried to Blow Up a Tent.

STREUBENVILLE, O., July 15.—A das-
tardly attempt has been made to blow
up the tent occupied by John and Wil-
liam Jones and families of this city, who
are camped at Adena, this county. Mrs.
Jones was awakened during the night
by hearing the burning of their commu-
nity tent and awakened the others,
who rushed to save their goods. John
Jones pulled the tent off the goods,
and about that time an explosion took
place in the other tent, which blew
things in every direction. The bomb,
it has been found out, was powder
wrapped in paper around which was
a gunny sack and binding twine, which
was dampened, and this was rammed
in a powder can. Being out of the
tent saved them.

and came to this country in 1830. In

ciding vote which sent Hon. Salmon P.
Chase to the United senate.

ENDEAVORERS WALKED

They Wouldn't Patronize Boston Street Cars on Sunday.

80 STREET SINGING AS USUAL.

Delegates Crowded the Churches and Heard Sermons by Eminent Visiting Ministers—This the Closing Day of the Convention.

Boston, July 15.—The programme of the Christian Endeavor Sunday included work only for the visiting clergymen. The local ministers in general gave place to those who had come from other localities to attend the convention, and it is doubtful if ever before in the history of Boston, its pulpits were supplied with such an array of eminent preachers.

To the more than 50,000 local members of the society the day came as a literal "day of rest." The energetic young men and women, who, ever since the convention opened, have been given but little respite from their labors in caring for the many visitors, appreciated the change and the strangers, wearied by continued convention sessions, seemed glad to be able to attend service in the locality in which their headquarters were, instead of having to undergo the crowding necessary to get to the tent meetings and the Mechanics' hall sessions.

This distribution of clergymen was so planned that the delegations quartered in the suburbs could attend worship in their districts. Several delegations located down town emphasized their ideas on the matter of Sabbath observance by meeting Saturday and passing resolutions pledging themselves not to use the street cars or other conveyances Sunday. As a result the streets, just prior to the commencement of regular church services, were thronged with men and women wearing Christian Endeavor badges, proceeding on foot to the most convenient churches. They had already begun the day with the usual 6:30 a. m. prayer meetings at their various headquarters, but in contrast to their practice on other days there was no singing on the streets as the delegations passed to and fro.

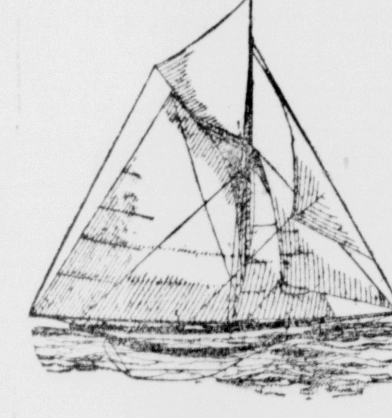

The clergymen who spoke Sunday are among the most eminent in this country, and the list also included many distinguished preachers from abroad. In many cases the themes were upon the Christian Endeavor movement and its results; in others general religious subjects were chosen. With 30,000 visitors in the city, besides the regular churchgoers, nearly every church was filled.

Today is the last day of the convention. Rain spoiled the patriotic meeting of the Christian Endeavorers on the Boston Common Saturday, which was expected to be the largest religious gathering ever held.

THE NEW DEFENDER FAST.

She Outails and Outpoints the Victorious Gould Yacht Vigilant.

Newport, R. I., July 15.—The new Defender has outtailed the victorious Gould yacht Vigilant in a fair and interesting trial coast off the Rhode Island coast, and Messrs. Iselin, Mor-

DEFENDER.

gan and Vanderbilt, the members of the syndicate, who followed every movement of both boats, expressed themselves as well pleased with the result. The new yacht again behaved admirably and both outtailed and outpointed her opponent. The crew of the Defender made quick time in bringing her about again, only requiring 18 seconds to change her course.

The syndicate boat proceeded to Bristol today to receive the finishing touches before starting for New York. The crew of the Defender, on their return, spoke in high terms of her behavior. Captain Hall was fairly elated with her work after the squall, and all who observed the yacht expressed confidence in her ability to compete with anything in her class afloat. She will likely give a good account of herself in racing for the cup against the new yacht of Lord Dunraven, the Valkyrie III.

Bishop Jones' Widow Dead.

WASHINGTON, July 15.—Mrs. Mary J. Jones, widow of the late Bishop S. T. Jones of the A. M. E. Zion church has died here, aged 64. She has been prominent in her church for 46 years.

THE NEW JERSEY CYCLONE.

Three Were Killed and a Number Injured—One Killed in Brooklyn.

HACKENSACK, N. J., July 15.—Between 40,000 and 50,000 persons have visited the scenes of the ruin and devastation, caused by the cyclone at Cherry Hill. Hackensack and the other towns have responded promptly to the call for aid made by the people of Cherry Hill. Houses, trees and everything else are wrecked in the path of the storm.

Three persons were killed. The two Polish laborers reported killed by the fall of the barn in which they had sought shelter are alive in the hospital here. They are Andrew Sautel and Anton Hoffman. Both are badly injured. Sautel's left leg, right arm and nose are broken, and his body is covered with bruises. The dead are: Conrad Freiderman, the Ahrens baby and Anton Fischer. Mrs. Ahrens was also injured, but will recover. Edgar Chinoock recovered consciousness for a short time and was able to recognize his mother, but relapsed in a short time and is now thought to be dying. Cole, the Paterson man, who was driving through Cherry Hill when the storm struck, has been removed to his home in Paterson. Willie Friederman, son of the dead man, was also removed from the hospital. The cyclone also did damage at Wood Haven and Union Course, one death resulting.

A New York special says: The cyclone struck the eastern part of Brooklyn, known as Cypress Hill, continued on its way to the lower plains district, and from there traveled to Wood Haven. One live was lost and the damage to property was great. A number of people were badly hurt. Mrs. Louisa Ketrequin of Third avenue was killed.

SODA WATER WAS SOLD.

The Sale Restricted However by an Old New York Sunday Law.

NEW YORK, July 15.—The resurrection of the Sunday law by Judge McAdam had the effect of only slightly checking the sale of soda and mineral waters by druggists and confectioners of the city Sunday. Possibly one such place in every 20 made no attempt to sell. One in every four sold only to regular customers, while all the rest sold to every one who wanted to buy.

Patrolmen received instructions on leaving their station house to make no arrests in such cases, except on complaint of those who had purchased drinks and wished to have the seller arrested. There was no disposition on the part of buyers to make complaints and as policemen in citizens clothes, who were on excise duty, were not instructed to get cases against the soda water sellers, the latter were not interfered with.

WILLIS WOULDN'T STAND IT.

He Stops Joseph Cook in His Criticism of Cleveland in Honolulu.

VICTORIA, B. C., July 15.—The steamship Miowera arrived from Australia and Hawaii Saturday afternoon. The literary exercises at Honolulu on July 4 were the scene of a remarkable incident. Joseph Cook of Boston was invited to speak and entered upon a personal criticism of President Cleveland, charging him with misrepresentation of Hawaii and Hawaiian affairs.

He was interrupted by Minister Willis, who presided, and after a sharp crossfire of charge and retort, left the hall amid silence. His action is looked upon as indiscreet.

Mexico's Business Booming.

WASHINGTON, July 15.—Ex-Governor Alexander R. Shepard who as governor of the District of Columbia in the Grant regime projected the plan of modernizing Washington, has returned here from his extensive mining properties in Mexico and Central America. "Mexico is in a flourishing condition," said he. "Her exports are increasing, business is flourishing and the great mining resources of the country are being developed by the introduction of the most modern American machinery."

Nearly Killed by a Burglar.

ATLANTIC CITY, July 15.—Miss Louisa Davis, a sister of Isaac R. Davis, superintendent and secretary of the Atlantic City Cooling company, residing at 112 South North Carolina avenue, was nearly killed Saturday morning at an early hour by a burglar, who had entered her rooms. Mr. Davis, who went to his sister's rescue, was also struck with the same weapon, and is confined to his bed with a serious wound.

Four Outlaws Sentenced.

KINGWOOD, W. Va., July 15.—The four outlaws, "Bud" and Bill Smiley, "Hank" Harvey and "Archie" Patterson, who were convicted last week for shooting and seriously wounding Sheriff Leroy Shaw of this county have been sentenced by Judge Hoke to five years imprisonment in the penitentiary.

LOCAL BREVITIES.

Born to Mr. and Mrs. A. B. Apple, East End, a son.

J. M. Hill has purchased a lot of new machinery for his plant.

Mrs. Carr, of this city, has moved her household effects to Pittsburgh.

The rain proved today that the streets should be cleaned by a sweeper. Two wheelmen collided on Sixth street last night, and one suffered a broken wheel.

An agent with a lot of samples was here today attempting to sell desks for the new school house to the board of education.

A two-month-old child of David Robb, West End, was buried on Saturday afternoon at the Tomlinson cemetery in West Virginia.

The initial Saturday night dance at Rock Spring was fairly attended and the crowd thoroughly enjoyed the evening. The dance was to have continued until midnight, but closed at 10:30.

One of the big patrol horses was discovered to be lame yesterday and is now being doctored. How the animal was lamed is a mystery as no one can remember any accident of recent date that would have caused the injuries.

John Gamble and James Larkins went to Salineville this morning where they will begin the brick work on the new school building which is to be as neat as it will be useful. Gamble & Surles, of this city have the contract.

Extensive improvements are to be made at Riverview cemetery. To the present time the water has been pumped by a wind mill, but in the future steam will be the power. The engine arrived at the freight depot this morning.

E. A. Stevenson and J. B. Elliott, of East End, arrived home Saturday night from a two weeks' outing on their bicycles. They reached their destination, Cumberland, Md., in safety, and enjoyed the trip going as well as when returning.

The flood which flowed down Carpenter run this morning was ample argument in favor of cleaning the district above. On its broad, dirty bosom floated cans, decayed vegetable matter and garbage of all description. The water had the color of a coal pile.

A broken truck under car 19 on the Wellsville road delayed traffic on the electric line Saturday evening. The wreck crew made a quick trip to the scene of the accident, and repaired the break in short order. The six-minute schedule has been restored, much to the delight of passengers.

The Hickman family are holding a reunion at the residence of J. H. Simms, Second street, today. Among those present are A. C. Hickman, St. Paul; Rev. S. M. Hickman, Cleveland; J. T. Hickman and daughter, Sistersville; N. B. Simms and daughter, Miss Ethel, Steubenville.

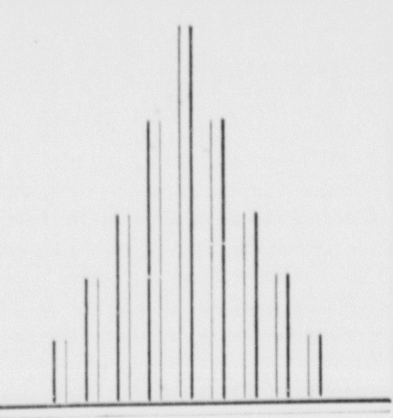

The steamer Hustler is tied at the foot of Market street, and the crew of 13 went to Pittsburgh by rail this morning. The boat is on its way to Pittsburgh, and was compelled to rest for want of water. The rain today is over a wide district, particularly in the east, and a good stage is expected by rivermen.

The colored campmeeting at Columbian park was well attended yesterday there being about 400 people on the grounds. The program as published on Saturday was carried out, and the ministers present delivered earnest sermons. Several collections, the money to be used in charity and other good work, were lifted.

The people who complain of the harsh tones of the bell on the new school building should spend a night in the country a few miles from town if they would know how well the bell sounds when the clock tells the hour at night. At Spring Grove the tones can be distinctly heard, each stroke being counted with ease. At that distance the sound is so softened as to be mellow and musical, yet as clear as anyone could ask. Clocks at the camp are now set by that time.

A young man who attended the campmeeting yesterday afternoon had an embarrassing experience. In company with his best girl he had listened attentively to the sermons, and when the collections were raised he was a regular contributor. At length the collectors found they had the required amount, minus five cents, and one of them cast his eye over the congregation for the man to make up the deficiency. The gentleman in question was selected, and he blushed a rosy red as he put the amount in the basket.

It was extremely amusing to note Saturday night that the local Democratic organ puffed itself for something it did not do during the Brotherhood convention, viz: Give correct accounts of the proceedings each day. The way in which the alley sheet was roasted by the delegates and newspaper men in Wheeling, as well as the delegates after they returned home, was severe, and the efforts of the unreliable paper to puff itself caused them to smile. The reports of the NEWS REVIEW were relied upon, and praised throughout by the potters.

The City Whipped In Another Legal Battle.

MRS. HAMILL WAS NOT GUILTY

According to the Ruling of Judge Billingsley She Can Have Her Money Back, and East Liverpool Must Pay the Costs—It Was a Case For Sunday Selling.

Special to the NEWS REVIEW.

LISBON, July 15.—The prosecution of liquor dealers for breaking the Sunday law in Liverpool got another black eye today when Judge Billingsley ruled that Mrs. Sarah Hamill was not guilty.

Readers of this paper will readily remember that Mrs. Hamill was convicted before Mayor Gilbert for selling liquor on Sunday, and was sentenced to pay \$50 and the costs. She took the matter to common pleas court where the decision was today reversed, and she got a verdict for \$63.80 the amount of money she was compelled to pay as a result of the prosecution. The city will have to bear the costs in the case which will go to join the Burns matter decided several weeks ago.

James Catner, the Liverpool man who was sent to the court of Judge Young because he stole a pair of boots from Hal Harker, was today sentenced to pay the costs of prosecution and spend five days in jail.

Henry Lyman was discharged today because the prosecuting witness was not here to push the case. The offense against him was a board bill at the Arlington Hotel in Wellsville.

HAYES SCORES A VICTORY.

He Dares the Window Glassworkers to Leave the Old K. of L.

PITTSBURGH, July 15.—Secretary Treasurer John W. Hayes scored a great victory at the National Window Glassworkers' convention Saturday. He appeared before the convention to explain why L. A. 300 should not leave the old organization. When he got up to speak he was hissed, but the delegates were all with him when he finished. When hissed Hayes dared the organization to leave the K. of L., and expounded a few sections of the laws of the order, one of which stated that if a local seceded any ten members of the body could reorganize and take all the funds and property belonging to the seceding body.

Mr. Hayes followed this up by giving the names of ten men who would take this action in case the organization went to the new K. of L. The fight was made on the proposed secession of L. A. 300, the richest labor organization in the country. It holds bonds, mortgages and cash to the amount of \$500,000, and has a membership of 7,000, including all branches of the glass trade. The general sentiment of the convention was that secession was out of the question, although no formal vote was taken.

A YOUTHFUL MURDERER.

He Fires Into a Crowd and Makes His Escape In West Virginia.

WHEELING, July 15.—A remarkable case of depravity has come to light in Barbourville, this state, and Percy Peyton, an 18-year-old boy, is a fugitive from justice. Peyton has been a terror to the officers of the law for over a year, and only a few months ago threatened to kill the marshal of Barbourville. He attended a social gathering at the schoolhouse and was soon in trouble with some of the young men there.

He became enraged at two of them, and drawing a revolver, began shooting into the crowd. Albert Davis, aged 20, an innocent bystander, was shot through the head and died in ten minutes. Peyton walked to the railroad station in a laughing manner and boasted of what he had done. None had the courage to arrest him and he boarded a train and escaped.

A Polar City.

Numbers of explorers who have sought the arctic regions in quest of the pole have told of a mysterious city mirrored against the northern sky—stately buildings in choice architecture, tall and imposing spires, but such as differ from anything we know about. Whether the foundation of this mirage is a reality and only unrecognizable because of transposition as to directions, whether it is a work of some mysterious remnant of our race that once occupied the pole, or whether this is some fanciful feature of the frost, as the peculiar shrubbery we see on the window pane—whatever this is, it must be consigned to the perplexing enigmas of the unknown region. Who knows but some spot, once the theater of busy and advanced human life, may have escaped the general cataclysmic wreck, and this city may be the silent and as yet undiscovered witness of prehistoric times, standing alone in the dead desolation, in the rigid shroud of now polar death. If we must be barred from entering this undiscovered country, we may add to our equipment by a careful noting of its mixture, and then give to the base of these phenomena a most thorough study.—Philadelphia Press.

MORE MINERS STRIKE.

Strike Along the Monongahela River. The Operators Not Disposed to Yield.

UNIONTOWN, July 15.—One thousand more men came out in the fourth pool on the Monongahela Saturday, closing down all the river mines from Brownsville to Monongahela City, a distance of 25 miles. The principal cause of the strike is that the operators are not anxious to have any more coal mined because the river is so low it cannot be shipped.

There are millions of bushels lying in the Pittsburgh harbor and along the pools which cannot be shipped. The operators have thousands of dollars in paper due soon and they are obliged to make some sales to meet their obligations. So long as this condition of affairs exists the operators will not pay out any money in wages.

The river operators claim their miners should work for the same wages the railroad miners receive, which is 42 cents a ton. It is possible that very little work will be done until the coal is shipped out of the pools and the Pittsburgh harbor next fall.

No Prizefighting in Texas.

AUSTIN, July 15.—Attorney General Crane has given out his opinion in the Corbett-Fitzsimmons fight case at Dallas in October. The opinion was in a reply to an inquiry from the Dallas county attorneys as to whether the law enacted in 1891 prohibiting prizefighting was valid and operative. He declares the law valid and says the state will look to the sheriff of Dallas county to enforce the law.

A Jack the Ripper Murder.

ST. LOUIS, July 15.—A white man, evidently familiar with the White-chapel manner of murder, has taken the life of Ella, alias Kid King, a negro, 26 years of age, and a desolate character. The woman's abdomen was ripped open in such a manner that the organs slipped out. Charles Schick, a white man who is said to have lived with the King woman in Kansas City, has been arrested on suspicion.

HAYANA, July 15.—The civil guard has captured two of the band who murdered eight persons at a store in San Jose, near Guanajuato. The pursuit continues of the rest of the band. Two of the gang, armed with machetes, made a pretext of watering their horses and killed a corporal of the civil guard, who was pursued. The guard made three prisoners, namely, Complot and one nephew, and Chief Quilutia.
